TRANS-PACIFIC partnership WOOL, LEATHER AND TEXTILES: KEY OUTCOMES

FACT SHEET

- New Zealand exported NZ\$604 million in wool, leather and textile products to the TPP region in 2015.
- The US, Japan, Canada, Mexico and Peru (New Zealand's five new FTA partners in TPP) imported an average of NZ\$96 million of wool, leather and textiles products from New Zealand per year from 2012–2014. Average annual tariffs were NZ\$3.3 million per year.

NZ\$3.3m

- Estimated annual tariff savings when TPP is fully implemented.

⇒ Key Outcomes:

- All tariffs will be eliminated on wool, leather and textiles products under the TPP. Estimated tariff savings will be up to NZ\$3.3 million per year when the agreement is fully implemented.
- To qualify for the preferential tariffs under TPP, exporters need to comply with the TPP rules of origin requirements (ROO), which are based on the 'yarn forward' model (with some deviations set out in the Chapter Notes and the Short Supply List).¹

1. For more details, see Chapter 4 (Textile and Apparel Goods), Annex 4-A (Textiles and Apparel Product Specific Rules of Origin) and Appendix 1 to Annex 4-A (Short Supply List of Products) of the TPP. The 'yarn forward' rule is more restrictive than the ROO which apply in New Zealand's other FTAs, so exporters should familiarise themselves carefully with the above Chapters, Annex & Appendix.

→ Key Product Outcomes:

Wool

All tariffs on wool products for Japan and Canada will be eliminated at entry into force. Tariffs will be removed for the United States within 5 years, for Mexico within 10 years, and for Peru within 11 years.
